

# Our chickens are raised on vegetarian feed

## Our products are without harmful additives

- No MSG [Monosodium Glutamate] added
- No Preservatives
- No Artificial Colour added
- No Nitrates or Nitrites added
- Zero gram Trans Fat per serving

At K&N's, our ethos drives us to produce all natural, safe and healthy, raised on a well-balanced, vegetarian diet, made of natural grain products, such as corn, corn gluten and rice; oilseed meals of soybean, canola and sunflower; supplemented with amino acids, multi-vitamins and minerals.

To ensure ingredients remain wholesome, they are always tested by our quality assurance lab, and rejected if they do not meet our highest quality standards.
